I still would love to get together to discuss:

- 1) pulling all the information NOT related to the viewer off of the epaossc.org website.
- 2) what would need to be done should we ever decide the spatial data viewer is a useful tool to inform the public.

See the attached report that we run every day to track web traffic on the epaosc site.

Many of my responsibilities are transferring to the field today so we may want to talk before I become much less available.
